## for individuals

**Technology allows us to operate anywhere in the world 24/7 meaning better and faster business.**

Unfortunately, this also leaves us open to attack. No-one is 100% secure from a Cyber-breach. The first sixty minutes are critical and can be the difference between recovery and a major impact to you.

The likelihood of attack can be dramatically reduced by having the correct protection in place. **Cyber**Sixty for individuals helps prevent an attack and is there if the worst happens.
